## Important Underwriting Update Regarding Driving Experience

Effective immediately, the following logic will be used when rating driving experience:

- Full experience, since the age of 16 will be given, with 18 months (1 ½ years) of verifiable, CA driving experience. Verifiable driving experience (18 months) will be validated.
- Foreign/FDL will be rated with full experience, since the age of 16.

This will simplify the quoting process, improve the competitive position and minimize up rates and confusion with Aspire.
